

# RACHEL LOBL

San Marin High School graduate, Class of 2020 and **2020 FRIENDSHIP SCHOLARSHIP recipient**

who graciously agreed for us to post her picture and answer a few questions about herself...

**Foundation Twenty One**  
*Trust—Responsibility—Respect—Integrity—Commitment—Understanding*

## **\$400 FRIENDSHIP SCHOLARSHIP**

*"In a world where you can be anything, be kind"*

Awarded Spring Semester 2020  
to San Marin High School student

## Rachel Lobl

F21 Trades Trailer—Industry tools

### **What were your most interesting classes in high school, and did they inform your choice of Davis as a college?**

I liked a lot of different subjects in high school. I was a part of the STEM program so I enjoyed those classes but I also enjoyed history and English. Because of this it was really hard to figure out what I wanted to study in college. My choice of UC Davis really came down to the fact that they have a great engineering department and that I liked the location of the campus.

### **Do you already have a specific area of engineering you want to study for your major?**

I am currently a Materials Science and Engineering major but I am considering switching to Civil Engineering.

### **Did either of your parents' professions play a role in helping you decide this? If not, what did?**

My father also studied engineering in college so that definitely played a role in exposing me to the field.

### **Why do you think your classmates chose you for our Friendship Award this year? Were you surprised?**

I was very surprised that I was chosen for this award since there were so many deserving people. It is amazing to me that I could have impacted so many people.

### **How do you envision your life after college?**

I don't have a clear plan for after college but I am looking forward to exploring my options while in school.
